1 Indian Head Trail
Gouverneur, NY 13642

Club Dues Have Changed, They are:
\$15.00 Single Membership
\$25.00 Family Membership (per household
@ the same mailing address)

The June 16th meeting started at 6:00 with 11 members attending. We all pitched in and “glue gunned” new dates to the show signs, disbursed them to members in attendance, and discussed their placement prior to “showtime”. Phoebe read the Treasurer’s report. There was no advertising report. Bill asked about field trips and Gary noted that at Owl’s Head, which is past Titus Mountain, is an old iron mine. There is no problem getting in and no fee. Noah mentioned that he is looking into an old garnet mine in Gouv. Bill is waiting to hear from Gardenscape when they are set for another blast. We have 3, 100’ long power cords for the show and should get one more and maybe another power bar.

ROCK PICKENS

ST. LAWRENCE COUNTY ROCK & MINERAL CLUB Date: August 2021

There will be at least two campers arriving early to set up before the show. Bill and Joanna are meeting with Marty Miller, the Canton Superintendent, to go over plans for the show on Thursday. We have dropped off the banner to Arnie's Printing Shop to update it. And we have ordered two Covid safety signs and the T-shirts.

They are having a hard time getting certain colors. Bill has ordered the insurance certificate for our show from the EFMS. We are all set with the egg cartons this year for mineral kits for kids. We talked about ordering the porta potty for the show. We passed around helper sign-up sheets for Fri.-Sunday of the show. Bill will order a 20X20 tent from Hurlbut's for the mineral kits for kids, so in case it rains we will not have to move inside.

is because the stone has a strong earthy or grounding element that is very useful to calm one's mind. The color shades of carnelian are various, and each of them has their own uniqueness and healing properties, elements and qualities. However, it is believed that the darker the color is, the more powerful the stone will be.

The Metaphysical Corner

Carnelian

In ancient history, **Carnelian Stones** were already famous and used by societies for various purposes. As for today, carnelian gemstone is believed to have magical characteristics for the wearer, such as improving one's confidence and creativity, so that people can speak up for their thought clearly and independently. The warriors of the past often wore this particular earth stone as necklace during battle, because they believed that carnelian was capable to boost courage and power in facing the enemies. Those various purposes show the best quality of the stone. Not only physical, Carnelian healing properties are also shown in healing various mental and psychic disorders with its calming quality. That
